We are writing to voice our objection to the application filed by Landtech to increase the number of parking spaces from 26 to 40 at 270 Saugatuck Avenue. My wife and I have been residents of Eno Lane for 34 years and have watched the neighborhood grow. We feel strongly about keeping the residential character of our street. Increasing the size of the lot, will increase traffic at times when young school children will be at or near the corner to board their buses or be dropped off. Parents wait for them in their cars to ensure their safety when they get on and off the bus, which will be compromised with the increased traffic to the Eno Foundation building. The building is a historical landmark and we would hate to see its character compromised with a large parking lot off to the side, very close to our street.

It is our request that the application to enlarge a parking lot that doesn't exist yet, nor a demonstration of need for the additional spaces, be denied.

Sincerely,

S. Richard and Lydia Kalt
